But most of all, we'd like to show you our dive sites — more than 60 of them. The Rhone, the Indians, Blinders, Painted Walls and so many more.

## BRITISH VIRGIN ISLANDS

### 1. PROFILE

Weather conditions are almost perfect. Because of their position within the trade wind belt, the islands have a balmy sub-tropical climate. Temperatures usually stay within the range of 77-85°F., both in Winter and Summer. At night, temperatures may drop about 10°F.

Lying some 60 miles east of Puerto Rico, the British Virgin Islands are chiefly volcanic in origin. There are over 50 islands, rocks and cays, many of them uninhabited, grouped around the Sir Francis Drake Channel. The B.V.I. offer spectacular scenes by sea and air, with an overwhelming sense of beauty and solitude.

### 2. BVI FILM PROMOTION OFFICE

The Film Office comes under the auspices of the Office of the Chief Minister. The Office is advised by a three-man Commission comprised of individuals with wide experience in the world of travel and business. A single telephone call can get you a permit to shoot anywhere on the islands. Location scouting, all local services (including land and sea transportation, technicians and recruitment of industry personnel) can be provided through this Office.

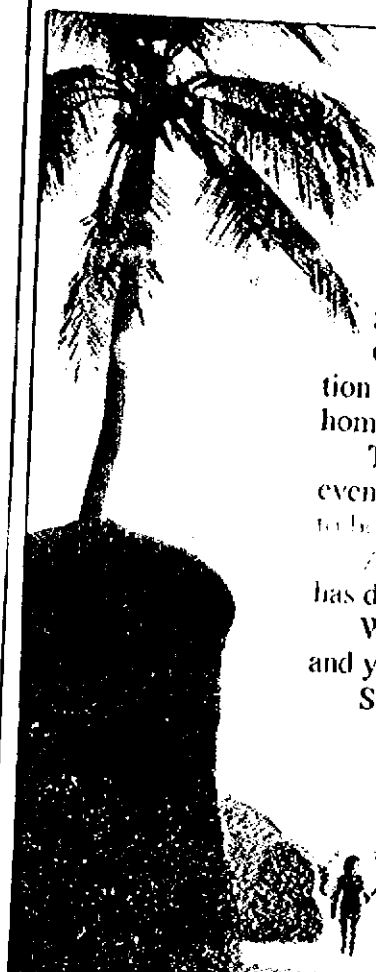

- Filming Permit Fees: \$300 per permit. No other fees.

Writers since Robert Louis Stevenson have found their inspiration with us. Gourmet said we offer "the ultimate combination of accessibility and remoteness," and Forbes said ours are "the most popular sailing waters in the Caribbean." Skin Diver Magazine described our home as "islands of unspoiled beauty and endless variety," and McCall's called the BVI "the Caribbean as it used to be."
